

September 11, 2025

Dear Citizenship and Immigration Canada,

This letter confirms that **Mustafa Jawish** is a registered full-time student in the **Computer Systems Technician - Networking** program of study at Algonquin College.

Algonquin College recognizes the need for its students to obtain valuable work experience in their chosen field of study before the students graduate. Through the expansion of co-op, field placements, internships, applied research, and volunteer options, all full-time students will be provided an opportunity to gain relevant work and community experience.

The work experience listed below is a mandatory requirement for the student to graduate with the co-op designation. Without completing this requirement, the student will not graduate with this designation. The student is evaluated with a passing grade. The co-op work component is monitored and evaluated through student and employer engagement, evaluation, and work term reporting throughout the students' co-op work term.

The work term must be a minimum of 420 hours, completed with an approved co-op employer, and be directly related to the student's program of study. In order to graduate from their program of study with the co-op designation, the above-named student needs to complete the required co-op work term(s) identified below:

- **May to August 2026**
- **September to December 2026**

**Please note:** the co-op work term typically runs from the first day to the last day of each work term.

If you require additional information please contact the Co-op Office at 613-727-4723 ext. 7623.

Sincerely,

Thandiwe Ncube  
Manager, Student Talent Development  
Co-op and Career Centre, Algonquin College  
613-727-4723 ext. 5930
